Introduction

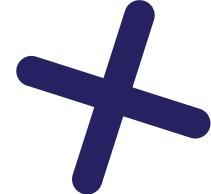

Choosing a suitable career is one of the most important decisions in life, as it shapes our future and guides our personal and professional growth. This presentation outlines my career interest, the reasons behind my choice, and the goals I aim to achieve. It also highlights the skills required in this field, the opportunities available, and the steps I plan to take to build a successful and fulfilling career.

Vision & Mission

Vision

My vision is to build a successful and meaningful career where I can continuously learn, grow, and contribute positively to society. I aim to develop strong skills, achieve professional excellence, and create opportunities that lead to a fulfilling and impactful future.

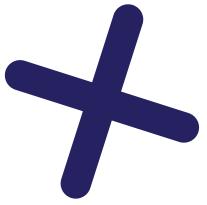

Mission

- 01.** To develop the essential skills and knowledge required to excel in my chosen career.
- 02.** To work with dedication, gain practical experience, and continuously improve myself to achieve long-term professional success.

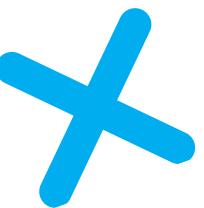

My Dream Job

- ❖ My dream job is to pursue a career that matches my strengths, interests, and long-term goals.
- ❖ I aim to work in a professional environment where I can grow, learn new skills, and contribute meaningfully.
- ❖ I want a career that offers stability, opportunities for advancement, and the ability to make a positive impact on society.
- ❖ My goal is to become a confident, skilled, and responsible professional in my chosen field.

Skills Development

- Learning new technical skills related to my career.
- Improving communication and teamwork abilities.
- Developing problem-solving and decision-making skills.
- Practicing time management and discipline.
- Gaining knowledge through courses, workshops, and daily learning.

My Experience

2023

Learning &
Exploration

Explored different career options and identified my strengths and interests. Developed basic skills through online courses and self-study.

2024

skill Building

Focused on improving communication, digital skills, and problem-solving ability. Participated in activities that helped build confidence and career awareness.

Career Goals

In 1 Year

Rapidly master the Senior role by leading one major product design cycle from concept to launch. Acquire advanced skills by completing a relevant professional certification (e.g., Google UX Design).

In 5 Year

Achieve Principal Designer status, demonstrating sustained strategic impact. Elevate personal brand by presenting key case studies at two major industry conferences, driving innovation for the firm.
